- 19** Yoga Club
- 20** Sports Club

### School Activities

- 21** Trip to Little Canada
- 22** Christmas  
Swimming Program & CPR Certification
- 23** Graduation

## Message from the President

2023 has been a memorable year for UIS. We moved to our new school for a better educational facility. Bigger classrooms, cafeteria, gym, and UIS village at your service. We also expanded by opening sports related programs-Swimming and Hockey focused Boutique systems. This is a new opportunity for many who are interested in sports streams or would like to keep up sports as a hobby along with their education.

UIS will continue to expand our education programs so we can invite more students to UIS. UIS' main objective is education for success and success for all. We will continue to lead students to their maximum potential and achieve their goals. So yet another year has passed.

High School is a short time to nurture a student. Grade 12 especially is a short time to wrap up high school and prepare for higher education to come.

Congratulations 2022-2023 graduates. You have made it! You worked hard and pushed yourself to finish your high school. You are now on the verge of a new chapter in your life. It can be scary, but that is okay. Believe that you can and continue to move forward. You learned enough to make it through your future. Good luck to you all.

**Tony Kim**  
UIS President

# Message from 2022- 2023 student council president

**Seojoon Jang**  
Student council President

When we reflect on our time at Urban International School, it is evident that we were fortunate to receive such a challenging but rewarding education. We have had the chance to learn new things, expand our skill sets, and make enduring friendships that we will cherish forever.

As we prepare to move on to the next stage of our lives, it is important to remember many lessons we were taught here at UIS: to be compassionate, inquisitive, and active members of our communities.

We will encounter fresh opportunities and challenges as we enter the wider world. But I'm sure we will be more than able to handle them. We received instruction on skills like critical thinking, application, effective communication, and teamwork to achieve shared objectives.

We can also find solace in the fact that we will always be a part of the Urban International School community as we start this new chapter. We will always carry the knowledge, abilities, and values acquired here whether pursuing further education, beginning new careers, or traveling to new places.

I'm excited to see what our future holds because we have accomplished so much. Thank you, Class, of 2023. It has been an honor of mine to serve you as your Student President. Thank you.

# Messages from UIS Teachers

The meaningful message for UIS Class of 2023

**Ms. White**

It has been my pleasure to be able to teach many wonderful students this year at UIS. To students who are graduating, congratulations and I wish you well in your future studies. For the students who are staying, it was a great year and I look forward to teaching you again next year. We also had a great year of playing games and making friends in the board games club and I hope to have more students join us in September.

**Ms. Leung**

I have been teaching Photography and visual art class. It is an honour to be able to inspire the brightest minds at UIS as an art teacher. I look forward to seeing what our students will do in the near future.

**Ms. Shaivi**

I've been teaching Gr. 11 and 12 Chemistry and Biology at UIS for nearly three years. I find my work environment to be dynamic and exciting, and I am continually learning about the diverse cultures and backgrounds of my students. Students here are very kind and we have worked together to better the process of teaching and learning.

### Mr. Que

Congratulations on your outstanding achievement. But remember being a graduate doesn't mean that you know everything – but you are better prepared to learn what life has in store for you. Make the most out of the knowledge you learned from school. Never stop growing, exploring, learning, and challenging yourself. We are proud of you but it's more important that you are proud of yourself. Wishing you all the best in what lies ahead and good luck!

### Ms. Hlywka

What a year! It has been a privilege and a blast working directly with the graduates of 2023. Being a part of their academic journey is what motivates us teachers each and every day. From marking essay after essay to seeing the ENG4U students release their inner Hamlet, it has been an exciting year. To all the graduating students, I hope you are proud of the effort you have put into your studies, and I wish you luck in your future endeavors. To all the students continuing at UIS this summer and in September, we can't wait to have you back! Congratulations to all students, staff, and teachers for a wonderful year.

### Ms. Dwivedi

I'm thrilled to have the opportunity to address all the amazing students who have been a part of my classes at UIS. This year has been filled with growth, learning, and unforgettable experiences. Each one of you has brought a unique perspective, talents, and dedication to the classroom, making it a truly remarkable journey together.

I want to express my sincere appreciation for your hard work, resilience, and commitment to education. Despite the challenges we've faced, you have consistently shown determination and a thirst for knowledge. Congratulations once again to all the graduating students! May your future be filled with happiness, success, and fulfillment.

### Ms. Malik

As we reach the end of another successful academic year, I want to take this opportunity to congratulate you on your achievements. You have demonstrated a strong commitment to your studies and have made significant progress in your academic pursuits. As your teacher, it has been a privilege to guide and support you in your journey. Your hard work and dedication have not gone unnoticed, and I am confident that you will continue to excel in your future endeavors.

### Ms. Yan

Congratulations to the graduating class of 2023! I am so happy to see you guys grow over these past years and earn these exciting new opportunities! This year I'm so grateful to experience our school reuniting both campuses. We had a lot of exciting activities this year with all of us reunited, I hope we have many more in the future as well! I was especially happy to see students active in the larger gym. There have been many competitive soccer, basketball, volleyball, and badminton games! Our students are so athletic, the sports games are very exciting to watch! I am very grateful to meet all of you guys and excited to see you move on to new adventures. For returning students, I hope to see many more fun and competitive sports games in the new school year!

### Ms. Kumari

I teach mathematics and science to the middle school students. It is a wonderful experience to be part of UIS this year. I really enjoyed teaching and sharing my knowledge with the students. I want to say to all my students that to achieve success, you need to fight for it, work hard, and find something to be enthusiastic about. I am so proud of the dedication and hard work shown by students. Preparation and dedication are the keys to achieving success. Have them both, and you will reach your goals. Go confidently in the direction of your dreams and cherish your future endeavours. Best of luck to you!

UIS 2022-2323

## Student Council

Introduce UIS 2022-2023 Student Council members!  
UIS student council members have served the UIS students and supported UIS school events and orientation throughout this year. Thank you for your hard work and dedication!

## Middle School Junior Club

Grade 7 - 9

Meeting new students and making new friends have been the highlights of our Juniors' Club this year. With the expansion of UIS to now include Middle School students, we have all had the opportunity to spend time with and get to know our fellow students from different classes in our special club for Grades 7-9. We look forward to continuing to connect next year!

### Science Club

With the growing interest and means of stimulating group participation and mobilizing interest in learning science, the science club was started. Thorough activities including the principle behind every experiment, giving hands-on experience, and organizing quizzes developed critical thinking skills among the students. The aim was to provide proper incentives and inspiration for the pursuit of scientific knowledge in a rigorous way by broadening their scientific outlook. Overall, UIS Science Club offered the students a chance to explore their interest in science and develop skills such as teamwork, leadership, and communication.

### Art Club

In the Art Club, students take the opportunity to work together to play, create and develop existing skills in the arts. During the weekly meetings, UIS students discuss all things art related such as current media-related projects they are working on, musical development, advice on technique building, and observational and imaginative drawing sessions. UIS Art Club is not just for Visual Arts and design! Students also have the opportunity to show off their musical talents with the instruments provided in the studio space.

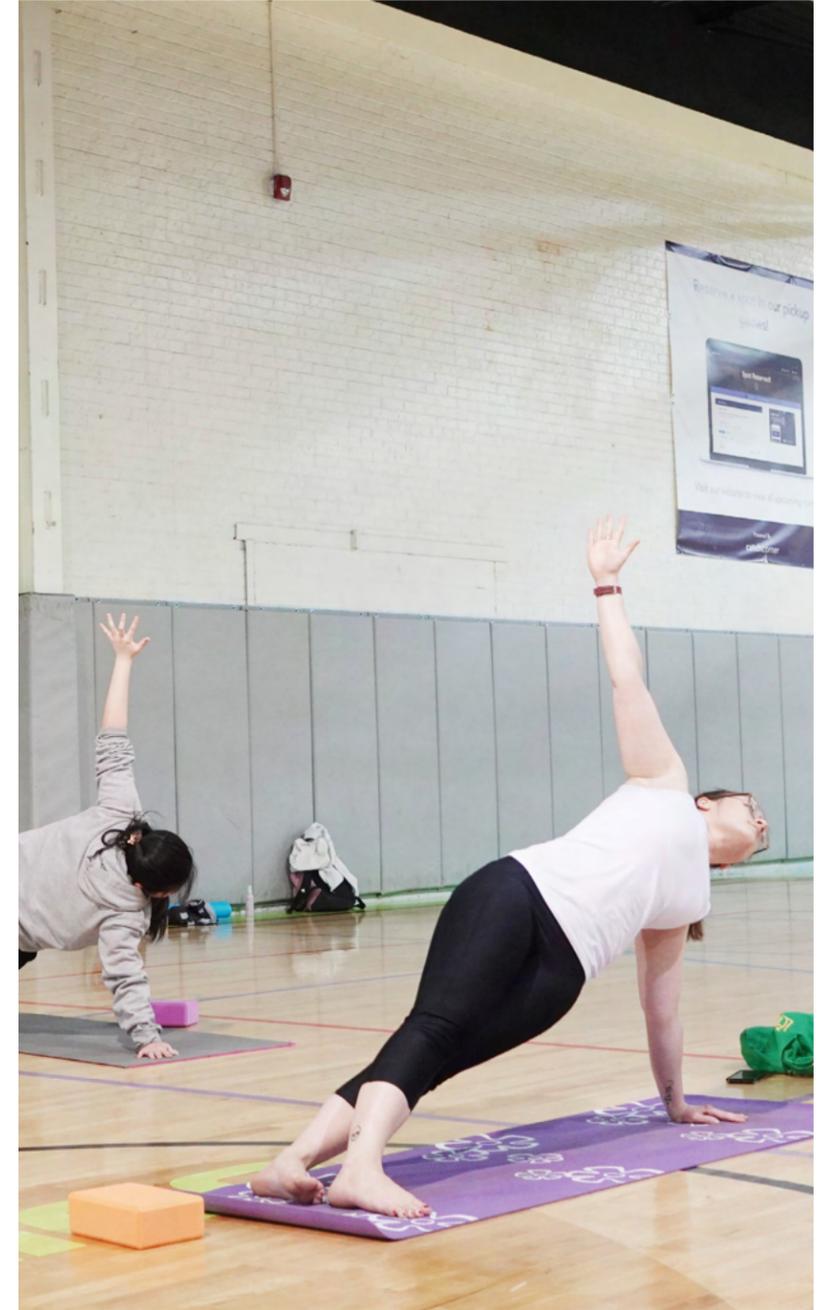

### Board Game Club

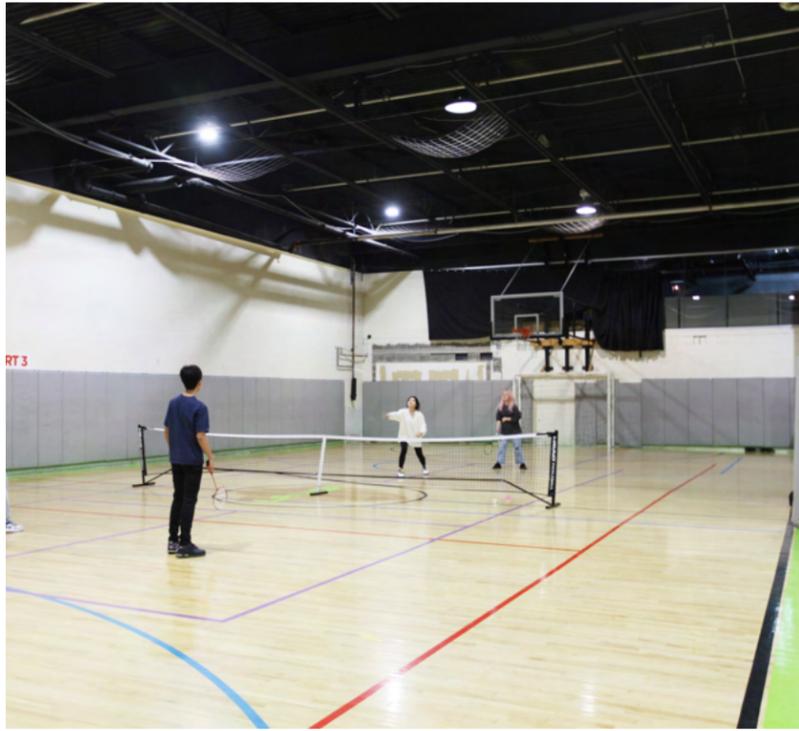

Board Games Club is a place where you can make new friends. We meet twice a week to play board games together. Students who join our board games club have the opportunity to practice their English skills in real life while having a great time. We welcome new members anytime and we look forward to playing more games together in the future.

### Yoga Club

This school year, in addition to enhancing our academic skills, we have broadened the control of our minds, bodies, and spirits through the yoga club. Starting from breathing and stretching and progressing to more advanced vinyasa flow, the UIS yogis have learned to align their breath with their movements, how to safely stretch, and even some new vocabulary.

### Sports Club

Students have been enjoying the sports club in the new larger gym this year! After school from Tuesday to Friday, students can enjoy soccer, basketball, and badminton all at the same time. Sport club members love to relieve some academic stress with a good competitive game! With the FIFA world cup taking place this year, students and staff have been obsessed with soccer! If you want to show off your foot work or relieve some stress, make sure to come by and play with our very own Mr. Emad!

## 2022- 2023 School Activities

### Trip to Little Canada

Little Canada is a miniature museum of Canada, and what better way for our students to experience Canada in one glance! Students experienced Quebec's Mon Tremblant Ski Hills to many different sites in Ontario.

### Christmas

Christmas was an annual festival. UIS enjoyed the day by sharing a warm cup of hot chocolate with the community. UIS Student Council collected donations for a cup of hot chocolate where it is donated to the community the needs. Christmas is all about sharing and love which was fulfilled when students gave back to the community in their own way.

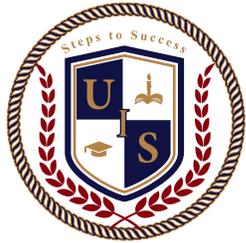

### Swimming Program & CPR Certification

The new swimming program ran in the April semester. Students who signed up learned to swim better with an experienced coach to stay healthy. The program then ended with CPR certification where everybody learned to save lives and to react in an emergency.

### Graduation

May came with a farewell. It is a long farewell moment we always dread. This year's graduating students had done some outstanding work and achieved extraordinary results starting with Jessie's \$100, 000 scholarship from U of T, acceptances from Rotman, Engineering programs to computer science programs of different top schools. Excellent work students, and now, go out there and shine and excel since that is what you do best. Farewell, and see you soon.
